### EXPERIENCE

#### IYANS CLOUD Software Pvt. Ltd.-1 year

**August 2024 – August 2025**

- Developed and enforced modern web applications using React.js and Next.js, resulting in a 15% increase in user engagement.
- Optimized application performance by 25% through efficient code development and utilizing backend technologies like Nest.js and the APL language.
- Collaborated on a team of 5 to deliver functional and user-friendly web solutions ahead of a two-week deadline, receiving positive feedback from stakeholders.

#### Pralcka Machinery Manufacturing Pvt. Ltd. (INTERNSHIP)-2 months

**December 2023 - February 2023**

- Collaborated with a 4-member digital marketing team as a digital marketing intern to build and launch a new company website using WordPress, Zoho Forms, and MySQL, ensuring seamless integration with marketing campaigns.
- Optimized website workflows by automating form submissions and database management, reducing manual data entry time by 30% and improving lead capture efficiency for the marketing team.

#### Brick Steel Enterprises InfoTech Pvt. Ltd. (INTERNSHIP)-2 months

**Setembar 2023 - october 2023**

- Integrated a Stripe payment gateway using the Laravel Framework and PHP, successfully processing over 100 transactions in the first month.
- Developed and applied a JSON CRON job to automate a key business process, reducing processing time by 40%.

---

### PROJECTS

#### Product\_list | <https://fabulous-daffodil-b5e211.netlify.app/>

**August 2025 - August 2025**

- Expanded a responsive web application using **React.js** and Vite to showcase a product list
- Executed a user interface with **Tailwind CSS** for a modern and clean design.
- Integrated a **Fake API** to dynamically display product data and details.
- Created a multi-page site with dedicated sections for Home, About, Contact, and Products, providing a comprehensive user experience.
- The project demonstrates proficiency in building fast, scalable, and responsive front-end applications.
- Credentials: admin / pass: 12345

#### Todo\_list | <https://glistening-cocada-d939b5.netlify.app/>

**August 2025 - August 2025**

- Improved a responsive To-Do List application built with **React.js** and **Tailwind CSS**. It uses an **API** for managing tasks, allowing users to add, delete, and update their to-do items.

#### Netflix Clone | <https://scintillating-marzipan-aab5a1.netlify.app/>

**August 2025 - August 2025**

- A Netflix-clone application built using React js and styled with Tailwind CSS for a responsive, modern interface.
- It leverages Firebase for user authentication and managing user accounts.
- The app fetches and displays a wide range of movie and TV show data by integrating with the TMDb API, providing an experience similar to the original platform.
